What is Amazon Renewed?

Amazon Renewed is your trusted destination for a huge selection of smartphones, computers, video games, power tools, and even more products that work and look like new and are backed by the Amazon Renewed Guarantee.

High-Quality Product

Professionally inspected, tested, and cleaned to work and look like new.

Guaranteed by Amazon

Quick support for claims and troubleshooting. Eligible for replacement or refund within 90 days of receipt if you are not satisfied.

Better for the Planet

Your Amazon Renewed purchase extends the lifetime of this product and reduces electronic waste

Why Renewed Desktops?

Tackle your daily tasks with a laptop that has the features you need
Screen with no visible scratches

What should I expect to receive with my Amazon Renewed purchase and in what condition?

All Amazon Renewed desktop computer purchases will come with accessories that may not be original, but will be compatible and fully functional. Amazon Renewed products will be packaged in either original packaging or in a new and clean cardboard box. Microsoft laptops, tablets, and desktop computers will be equipped with authentic software licenses and will have a Genuine Certificate of Authenticity available. Amazon Renewed products will be clean and will have minimal to no signs of wear or visible cosmetic imperfections when held at an arm's length. The products will have batteries which exceed 80% capacity relative to new and will function like new. Product will be restored to its original factory settings.

What if I'm not completely satisfied with my Amazon Renewed purchase?

We can also help you troubleshoot technical problems and assist with returns. From 'Your Orders', click on 'Get Product Support' or click on chat/phone for Amazon Customer Service at <https://smile.amazon.com/gp/help/customer/contact-us/>. [Learn more about the Amazon Renewed Guarantee](#)

Question: [What type power supply for this item: 1125watts or less?](#)

Answer: There are 2 different power supplies. 850W and 1125W. I am running esx 6.7 with vcenter and lots of VMs. The system has 256GB mem and about 20TB of storage. I find it amazing that when everything is idling, the watt meter on the system reads 185W. You need to look at the number of the actual power supply installed in t... [see more](#)

An impressive workstation for the price

Reviewed in the United States on May 6, 2021

Verified Purchase

A solid workstation. I got the 256gb ram version. Well worth the price for a dual Xeon processor workstation. Came with everything reported, shipping was in a foam filled box, 70 lbs. everything worked right out of the box. Windows 10 was included, but I dual boot Linux now.

JJ@wexford

Inaccurate description - NO SSD in the computer

Reviewed in the United States on October 1, 2020

This is no SSD in the computer as claimed by the seller. It has regular SCSI disk and overall performance is not impressive at all.

Tobin

Best computer for the money you can buy

Reviewed in the United States on January 19, 2021

Verified Purchase

When I saw this deal, I ordered two immediately. They disappeared quickly after that from Amazon. Amazing deal. Both have 256 GB of RAM, 500 GB SSD, dual Quadro K2000, and a 3 TB HD. Easily expandable to add more HD or SSD. Boots and runs very quietly. Steel plates form the sides of the case. Extremely solid. Scuffed, but I'll buff out the scratches and damage and they'll look like new. Make sure you get a support package on the machines too. Ordering these machines new would cost you easily more than \$3500 a piece.
